Reusable IBC at a LOWER COST than any Single Use IBC in the Market

Empty IBC with cassetted form fit liner

IBC Filled Unit

IBC Ready for Discharge

Re-usable IBC which is less expensive than all other single use IBCs.

Whether you use a rigid IBC, single use corrugated IBC or any type of drum, we can dramatically reduce your material handling cost by up to 50% or more.

FEATURES INCLUDE ...

- Most compact IBC in the market
- Form-fit liner
- Collapsible design
- Re-usable - ISTA Certified RIBC
- Not affected by moisture
- Capable of handling hot fill temps up to 300°F with specialty liners
- Bottom discharge option available
- Made from FDA approved materials
- Recyclable
- Eliminates fiber contamination from fill and discharge locations
- Lightest weight IBC in the market - load more product per truck, container or rail car reducing transportation costs
- Range of sizes available

COMPACT - 15 Empty Units on One Pallet

- 1) Reduces number of trucks delivering empty packages at your facility
- 2) Reduces labor required for unloading trucks and retrieving packaging from warehouse
- 3) If IBC is re-used, dramatically reduces per trip cost

VALVES

2" and 3" ~ low profile
Available at extra charge

ORDER INFORMATION

- IBCs available for purchase
- Credit for returned unit program
- Trip leasing program available

www.harborppi.com

FOUR HIGH STACK ...

Shown at the right in rain storm with the bottom unit being discharged. Note how the stack has remained sturdy ... units are strong enough to support the stacked load even if the units are wet due to condensation, a spill, or sprinkler system going off in the warehouse. Our IBC is so strong it can handle the static load when one or more of the units are empty.

One Truck Load of Empty Composite Container IBCs Equals:	
Product	# of Truckloads
Spacekraft*	2.1 truckloads
IP** Corrugated IBC	9.2 truckloads
55 Gallon Drums	8.0 truckloads
Bottle and Cage	9.2 truckloads
